TITLE: TEST PROCEDURE FOR AX568

Typed by mtp 8/11/65

## I. INTRODUCTION

The Model AX568, a Remote Control Unit, is used in a TMC Model LRCM-1 which is comprised of six (6) AX568 units. One AX568 unit is used to remotely control and monitor an individual transmitter. The following test procedure will be used to test ONE AX568 unit at a time. Therefore, it will be necessary to repeat this test procedure for each AX568 unit in the LRCM-1.

## II. REFERENCE MATERIAL

- A. TMC Specification No. QA-1080.
- B. TMC Specification No. QA-5004.

## III. PRELIMINARY REQUIREMENT

This unit (AX568) must be completely checked out according to TMC Specification No. QA-1080.

## IV. TEST PROCEDURE

The final test and inspection of this unit is covered in TMC Specification No. QA-5004, Pages 13 and 14.
