TMC SPECIFICATION NO. S-314

TITLE: TMC STOCK HARDWARE

JOB | A

APPROVED *WDC*

OBJECT:

The object of this specification is to list hardware that should be continuously reordered when the stock reaches what Production Control determines as a minimum quantity and therefore, prevent production hardware shortages.

BILL OF MATERIALS:

Hardware on Bill of Materials will be listed in three separate groups, i.e. TMC Stock Hardware, Special Hardware (all screws, lockwash rs, and nuts not listed on this specification) and Painted Screws. This p rtains to all future Bill of Materials commencing from 12/4/56.
