

DATE <u>5-61</u>	TMC SPECIFICATION NO. S-5711	
SH. <u>1</u> OF <u>1</u>		
COMPILED BY <u>J.A.D.</u>	TITLE: ASSEMBLY DATE IDENTIFICATION	JOB
APPROVED: 		

SCOPE:

This specification establishes the formation and application of assembly dates on RF switches and junction boxes.

PURPOSE:

To create a method of marking which will indicate the date of assembly of RF switches and junction boxes.

All RF switches and junction boxes shall be stamped with code numbers which will indicate the month and year that these items were assembled. The number shall be stamped on the name plate (foil cal) and on the inside of the can before the cover is attached and sealed. The following is an explanation of the numbering code:
