CHECKED

TITLE: TEST PROCEDURE, FFR-3/CAN-1A

*[Signature]*  
APPROVED

## I PURPOSE:

To provide the procedure for aligning and testing the Model FFR upon completion of CAN-1A modification.

This modification only affects the tuning drawers.

## II PROCEDURE:

Align in accordance with TMC Specification S163, making the following changes:

A. On page 7, eliminate the two lines which read---

V(5)03	5	+95
	6	+125

B. Also eliminate the two lines which read---

V(1)03	5	+100
	6	+130

C. On page 10, eliminate steps 1 through 6 of section K.

D. On page 11, eliminate steps 7 through 14 of section K.

E. On page 13, eliminate Figure 3.

F. On page 15, eliminate the line which reads---

Reactance tube shift KC KC KC
