

ENGINEERING ADMINISTRATIVE MEMO NO. 22/63

DATE: 1 November 1963

SUBJECT: RF Connector Components with UG Part Numbers

ENCLOSURE: List of UG Numbers

1. Effective immediately, on all TMC Material Lists and technical documents, the revision letter on all military "UG" type part numbers (e.g.: UG-260"D"/U) should be disregarded and connectors should be purchased and stocked by the latest military revision letter.

An asterisk (*) will be used instead of the revision letter (e.g.: UG-260 * /U).

Material Lists containing UG numbers will carry a note, "* Use latest revision letter in UG numbers."

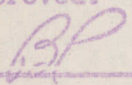

2. Material Control is requested to deplete all inventory under an earlier revision letter before issuing inventory under a new revision letter.

3. Purchasing Department should order all military type "UG" part numbers using the latest revision letter and will so note on the purchase order. For the latest revision letter, contact the Engineering Standards Section.
